

DevKics

Global Concept Note

Where Tech Comes to Play

Founded by Code Campus International

Executive Summary

DevKics is a global community-driven football platform that brings together developers, designers, founders, students, startups, technology companies, innovation hubs, bootcamps, and technology communities through professionally organized football tournaments.

Unlike traditional sporting competitions, DevKics is designed as a **technology ecosystem movement** that uses football as a tool for networking, collaboration, healthy competition, talent discovery, community building, and lifelong relationships.

At its core is a centralized digital platform that enables approved volunteers around the world to organize official DevKics tournaments in their own cities while maintaining consistent standards, branding, governance, and quality.

DevKics is founded and owned by **Code Campus International**, with a long-term vision of becoming the world's largest technology sporting community.

Vision

To become the world's leading sports community connecting people in technology through football.

Mission

To strengthen technology ecosystems worldwide by creating meaningful relationships through sports, collaboration, and community-led events.

Motto

Where Tech Comes to Play

The Problem

The global technology ecosystem is growing rapidly, yet interactions are largely limited to:

- Conferences
- Hackathons
- Meetups
- Training programs
- Online communities
- Networking events

There are very few opportunities that bring technology professionals together in a relaxed, fun, and inclusive environment.

Football has the unique ability to unite people across companies, communities, countries, cultures, and experience levels.

DevKics bridges this gap.

The Solution

A global digital platform where approved local volunteers organize official DevKics football tournaments in their cities.

Every tournament follows a unified structure while allowing flexibility for local communities.

The platform provides everything organizers need, including:

- Registration
 - Team management
 - Player management
 - Fixtures
 - Standings
 - Live scores
 - Statistics
 - Sponsorship management
 - Volunteer management
 - Media management
 - Event reporting
-

Platform Philosophy

DevKics is not simply a football tournament.

It is a global technology community movement.

Football is the medium.

Community is the outcome.

Objectives

- Connect technology communities through sports.
 - Promote networking beyond formal events.
 - Encourage healthy lifestyles within the tech ecosystem.
 - Build friendships across organizations.
 - Increase collaboration among technology communities.
 - Create opportunities for sponsors.
 - Celebrate technology talent.
 - Build an annual global sporting tradition.
-

Target Participants

- Software Engineers
 - Designers
 - Product Managers
 - Data Scientists
 - AI Engineers
 - Cybersecurity Professionals
 - Cloud Engineers
 - Startup Founders
 - Students
 - Bootcamp Participants
 - Technology Companies
 - Innovation Hubs
 - Universities
 - Developer Communities
 - Open Source Communities
-

Tournament Structure

Each city organizes its own annual DevKics tournament.

Recommended format:

- 6–12 teams
 - 5-a-side or 6-a-side football
 - Group stage
 - Knockout rounds
 - Semi-finals
 - Third-place playoff
 - Final
-

Awards

- Champions Trophy
- Runner-up Trophy
- Golden Boot
- Best Goalkeeper
- MVP
- Best Defender

- Best Young Player
 - Fair Play Award
 - Fans' Player of the Tournament
 - Best Team Branding
-

Global Platform Architecture

The website serves as the headquarters for every DevKics edition worldwide.

Examples:

- devkics.com/abuja
- devkics.com/lagos
- devkics.com/london
- devkics.com/nairobi
- devkics.com/accra
- devkics.com/toronto

Each city receives its own dedicated portal while remaining part of the global platform.

Homepage Features

- About DevKics
 - Find Your City
 - Upcoming Events
 - Global Calendar
 - Global Rankings
 - News
 - Sponsors
 - Volunteer
 - Become a City Organizer
 - Live Matches
 - Hall of Fame
 - Global Statistics
-

City Portal Features

Every city portal includes:

- Local homepage
 - Event countdown
 - Tournament information
 - Registration
 - Teams
 - Players
 - Fixtures
 - Live scores
 - Standings
 - Statistics
 - Sponsors
 - Volunteers
 - News
 - Gallery
 - Champions
 - Media coverage
-

User Roles

Global Super Admin

Complete platform ownership and administration.

Global Operations Team

- City approvals
- Governance
- Standards
- Global partnerships

Country Director

Oversees multiple cities within a country.

City Lead Organizer

Responsible for one city edition.

City Organizing Team

Supports operations, logistics, communications, sponsorship, media, and volunteers.

Team Manager

Registers and manages an organization's team.

Player

Maintains a player profile and participates in tournaments.

Volunteer

Supports tournament execution.

Sponsor

Manages sponsorship information and branding.

Fan

Follows teams, players, and tournaments.

Becoming a City Organizer

Applicants complete an online application including:

- City
- Country
- Technology community experience
- Organizing experience
- Proposed organizing team

- Expected participating organizations
- Proposed venue
- Proposed tournament date

Applications are reviewed centrally.

Approved organizers receive access to a dedicated city dashboard.

Governance

The central DevKics organization controls:

- Brand
- Website
- Platform
- Standards
- Rules
- City approvals
- Organizer appointments
- Global sponsorships
- Quality assurance

City organizers control only their approved city.

Digital Features

Registration

- Organization registration
- Team registration
- Player registration
- Volunteer registration

Tournament Management

- Automatic fixtures
- Match scheduling

- Live results
- Group tables
- Knockout brackets

Statistics

- Goals
- Assists
- Cards
- Clean sheets
- Team rankings
- City rankings
- Historical records

Media

- Match photos
 - Highlight videos
 - Interviews
 - Team profiles
 - Match reports
-

Community Features

- Fan voting
 - Match predictions
 - Team pages
 - Player profiles
 - Discussion boards
 - Notifications
 - Event calendar
-

Sponsorship Opportunities

- Title Sponsor
- Platinum Sponsor

- Gold Sponsor
- Silver Sponsor
- Technology Partner
- Connectivity Partner
- Hydration Partner
- Media Partner
- Medical Partner
- Awards Partner

Sponsors receive visibility across both the digital platform and physical tournaments.

Content Strategy

DevKics is designed to generate year-round content:

Before tournaments:

- Team reveals
- Fixture draws
- Captain interviews
- Sponsor announcements
- Jersey launches

During tournaments:

- Live scores
- Goal highlights
- Interviews
- Photography
- Social media updates

After tournaments:

- Awards
 - Statistics
 - Match reports
 - Documentary videos
 - Hall of Fame updates
-

Technology Stack

The platform should support:

- Multi-city architecture
- Role-based permissions
- Real-time updates
- Mobile responsiveness
- API-first design
- Cloud-native deployment
- Scalable media storage
- Analytics dashboard
- Notification system

Future integrations may include live streaming, AI-powered highlights, wearable device statistics, digital ID verification, and QR-code event check-in.

Future Expansion

Once city editions are established, DevKics can introduce:

- National Championships
 - Regional Championships
 - Continental Championships
 - DevKics Global Cup
 - DevKics Women
 - DevKics Universities
 - DevKics Youth
 - DevKics All-Stars
 - Annual DevKics Awards
-

Roadmap

Phase 1

- Build the DevKics platform

- Launch DevKics Abuja
- Validate operations
- Document best practices

Phase 2

- Expand to major Nigerian cities
- Recruit volunteer organizers
- Build sponsorship relationships

Phase 3

- Expand across Africa
- Introduce continental rankings
- Launch Africa Championship

Phase 4

- Global expansion
 - International partnerships
 - DevKics Global Cup
-

Success Metrics

- Number of participating cities
 - Number of registered organizations
 - Number of teams
 - Number of players
 - Volunteer growth
 - Sponsor retention
 - Tournament attendance
 - Media reach
 - Social media engagement
 - Community satisfaction
-

Long-Term Vision

DevKics will become the world's premier technology sports community, empowering local leaders to organize world-class football tournaments while remaining connected through a single global platform.

Every city edition strengthens local technology ecosystems. Every participant builds meaningful relationships. Every tournament contributes to a global movement where innovation, collaboration, wellness, and community thrive together.

Ownership

DevKics is a global initiative conceived, founded, and owned by **Code Campus International**, which serves as the custodian of the brand, platform, governance, and long-term strategic vision.

As the movement grows, Code Campus International will continue to provide the technology, standards, training, and operational framework that enable volunteers worldwide to deliver consistent, high-quality DevKics experiences.
